Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner called to indicate the new claim 22 has the same issue as previous claim 3, would be rejected under 35 U.S.C. § 112, 1st paragraph; and if the limitation of claim 23 is incorporated to claim 22, the amended claim 22 would be claiming the same subject matter as claim 3. The examiner suggested to cancel claims 22, 23, and make a new dependent claim to state the phenotype of the transgenic mouse in order to make all pending claims in condition for allowance. Mr. Yun consulted the applicant, and agreed to the proposed amendment in the form of an examiner's amendment. .
